

Green Team Seminars

Importance of Green Teams

Green Teams help implement sustainability programs and/or positive environmental stewardship initiatives, raise employee awareness of the consequences of their actions, encourage employee involvement while recognizing them for their efforts to engage the company in sustainability practices.

Introductory

1. Creating a Green Team
2. Identifying Priorities

Intermediate

1. Creating Policies
2. Improving Energy Efficiency (Save Energy and Save \$)
3. Assessing Your Organization's Carbon Footprint
4. Conducting a Procurement Assessment
5. Engaging Employees in Going Green

Advanced

1. Metrics to Track Progress
2. Maintaining the Momentum

One of our Seminars is for you if you and your company....

- **Just started thinking about going green at work but are not sure where to start**
- **Already have a Green Team but are wondering where to go next**
- **Have had a Green Team for some time but want to know what else can be done or are concerned about losing momentum**
